Company Overview

McNolty Mechanical Inc. is a privately owned company specializing in shop and field fabrications. Our Team has over 60 years of combined experience in the installation of high pressure Mechanical Piping systems, Pressure Vessels and Structural Steel. Our company provides a full range of mechanical, utility, and maintenance services to commercial, industrial, institutional, and government markets.

Regardless to the complexity or size of the project; McNolty Mechanical has prided itself in providing the highest quality service to all its customers.
